

RILEY LEISURE

A GUIDE TO GAMES TABLES

ALL THERE IS TO KNOW BEFORE YOU BUY

WWW.RILEYLEISURE.COM

THE HOME OF TABLE SPORTS

*E. J. Riley Limited
Accrington.*

h.

1897

The company, E.J.RILEY is formed by an ex bank clerk E.J. Riley.

E.J. Riley started life as a humble sports shop.

1910

The company ventures into opening billiard halls, such as Ardwich Hall Manchester.

1912

The company soon becomes the largest maker of snooker tables, making 4000 tables a year, shipping to all parts of the World.

1920

The company has been built into a premium quality manufacturer of Snooker tables, Snooker cues and accessories.

1926

The company had built up ownership in 40 billiard halls.

This same year E.J. Riley died, aged 70.

1939

During World War 2 the company took on war work, at the same time as trying to keep the billiard table repair and servicing business going.

1967

E.J. Riley Limited acquired Burrows & Watts, a billiard repair business.

Riley Burwat was subsequently born.

1968

Modern Recreations was formed to expand the billiard hall business with a joint venture partner.

1971

Riley bought out their partner and the name of the company was changed to Riley Snooker Clubs Limited.

1977

A merger occurs between E.J. Riley and Headcrest Limited and the company goes public with a quotation on the stock exchange.

1984

Snooker reaches a peak as the sport moves on to television and Riley move from Accrington to Padiham in Burnley.

1987

Riley was purchased by a company called Midsummer Leisure Group. They were principally involved in the ownership of public houses, night clubs and venue bars.

1992

Riley strike a deal to supply it's Aristocrat Snooker table to World Snooker (WPBSA) for all televised snooker events. Including the World Snooker Championships. This continued until 2009.

1997

E.J. Riley, Hazel Grove and Greenmaster Bowls merged into one organisation called Riley Leisure Limited.

2002-

E.J. Riley is purchased by BCE (Distributors) Limited as is the case today.

Stuart Lacey, the owner, continues to grow the business around the world.

RILEY
ENGLAND
A Division of BCE (Distributors) Ltd

When it comes to games table products, other brands do not follow the same specification or standards as Riley and BCE do.

I can honestly say all of our games tables are the best in class.

The specifications check list will confirm this, and should you find any other brand who can match our specifications, let me know.

We will provide you with all the information required so you can make an informed choice.

The reason our specifications are so much better than other brands is simple. We at BCE and Riley want to give you the most realistic playing experience on all of our tables as if you were playing in a club, pub or sports centre.

Remember if the price looks too good to be true, it normally is.

Stuart J Lacey
Managing Director
BCE Riley

At BCE & Riley, our goal is to supply you with the highest possible quality of product and at the most affordable prices.

What we stand for; Authenticity, Playability, Durability;

Riley and BCE games tables have always stood for quality, innovation and best in class. There is only so much you can do with a Games Table, but what we as a company do is far superior to anything else in the market. Again, we have always focused on using the right materials, components etc to give maximum playability, re-creating the playing experience to get as close to that as you would enjoy if you played on a full-size Snooker table or Pool table. Our philosophy is, "just because a Games Table is sometimes a fraction of the price of the real thing, doesn't mean you can't re-create the real thing as authentically as is physically possible".

One of our biggest frustrations is, communicating that message from a page in a catalogue or a website. You only find these things out as a consumer if you put a Riley and or BCE brand of Pool or Snooker table alongside another competing brand of Pool or Snooker table.

You may ask how? The main key characteristics are simple, stronger, thicker, more durable better-quality components make for a better table. Take the Playfield, Riley & BCE Playfields are built to the standard they are for two reasons, playability and longevity, why you may ask? for authenticity. If the Playfield is too thin, you won't know until the balls start to roll off, you may argue, what will the kids know, or the cushion rubber may not be rubber at all, the cushions may in fact be made of a type of foam, as is the case with some tables in the market. Then there are the balls, if you are buying a Pool or Snooker table for the home, you expect the balls to be of a size that work effectively when using the table, right? Wrong, some brands include balls that can only be described as marbles. Ever tried playing Pool using marbles? It's not easy. So, you see, these are just some of the pitfalls to look out for. Ask yourself this when searching the market, how many brands who offer Games tables in the market actually manufacture the real thing?

Answer, probably just Riley and BCE.

Remember what Riley and BCE stands for in Games Tables, quality, durability, playability, authenticity and best in class. If that is what you are looking for, then we are the company for you.

We are extremely innovative as a company, over the years we have tried to innovate where we can, we know space is a big consideration in many homes, our design people have focused on coming up with space saving concepts that allow you the consumer to either store the table when not in use, or allow functions that save space or indeed double up into something else.

We have also been the main architect in creating Games tables with multi functionality. Why would you want to buy a Pool table one year and a Table Tennis table the next year, when you could buy one of our multigame table options?

Riley Semi-Pro 7ft American Pool Table

Probably the finest composite bed pool table Riley have ever produced. An extra thick composite playing field is braced and supported by a metal frame to provide a near slate quality playing surface.

The quality is apparent as soon as a ball is struck, and players remark on the quality of the surface. The table is fitted with competition quality K66 rubber cushions to provide maximum response during play.

And, what's more, unlike most games tables, the cloth and cushions on the Riley Semi Pro can be replaced once they are worn out -this extends the life of the table beyond that of any competing games table at this level.

Specification:

- Oak Laminate Finish
- Complete with accessories
- 57" (145cm) 2 Piece Cues
- 2 1/4" (57mm) Pool Balls
- Independent Leg Levellers

BCE Black Cat 7ft American Pool Table

The BCE “Black Cat” 7’ Pool table is the top of our non-slate bed range. Complete with full size American pool balls, this really offers a near slate quality playing surface and looks fantastic in the home.

We use high quality PVC Veneers to create the Ash black exterior – we do not use cheap paper laminations that will quickly deteriorate. Chromed metal corners accentuate the clean lines of the table and the top rails are decorated with simulated mother of pearl to complete the authentic American Pool appearance.

PATENTED TECHNOLOGY

RILEY 'W' Leg - 6ft Folding Pool Table

The Riley "W" Leg has been designed to look stunning in any home. Stylish design, rounded ends and "Riley" branded leatherette finish make this one of our best selling tables.

The unique "W" leg means that the table comes readymade – no assembly required. When you get the table, open the box and you can be playing a great game of pool within minutes.

The patented "W" leg system allows the table to be folded flat. It only takes and few minutes. The table then has a handle one end and castors the other. It can be stored out of sight – under a bed or behind a sofa.

Specification:

- No Assembly Required

RILEY 6ft Vertical Folding 5 In 1 Snooker Table

The original and still the best. The RILEY 6' Pool table was the first of its kind on the market. This table combines solid, quality construction with the innovative BCE designed folding leg system. Some have tried to imitate, but no-one has equalled.

At RILEY BCE, we strive to provide the best playing experience possible. We use a thicker, 12mm MDF bed for the playing surface and we brace it fully. You get: better ball response; no deviation when the ball is struck and no warping of the bed over time. We will not use cheap materials that warp easily. This extends the life of the table.

Specification:

- Complete With Accessories
- 48" (122cm) 2 Piece Cues
- 1 3/4" (44mm) Snooker Balls
